

Seal clamp blue

The seal clamps can be used for sealing watervalves, connections en water meters.

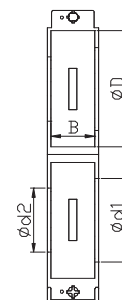

The KZ seal clamps are produced from a 100% recycleble material.

Due to the click construction the clamps can be mounted quick and easy without using tools.

To quarantee the sealing, a lot of attention is put in to the size of the clamp.

Due to this it is not possible to open the connection without damaging the seal clamp.

Partno.	Discription	Application	d1	d2	D	B
VZ40651	Seal clamp Blue 26,5-26,5	1/2" connection	26,5	26,5	36	24
